

Whiteline Ceiling Panels

Now there's a new standard in ceiling tiles, Whiteline. These contemporary white tiles have a distinctive smooth finish that's a total departure from the ceiling tiles of the past.

Built from a unique willtec foam core, Whiteline tiles are lightweight, guaranteed not to sag and offer superb sound absorption. They are available in a variety of dimensions and can be integrated into any conventional ceiling suspension grid. This makes them extremely easy to install.

Whiteline ceiling tiles are thin and lightweight making them much more affordable to ship. The minimum product thickness of 3/8" apposed to the usual 3/4" substantially reduces your freight charges.

If you're ready to bring innovative beauty, acoustical excellence and logistical advantages to your design, choose Whiteline tiles. They are the optimum choice for today's ceilings.

Coefficients per ASTM C423-90a

	125Hz	250Hz	500Hz	1kHz	2kHz	4kHz	NRC
0.4"	0.13	0.55	0.54	0.71	0.75	0.83	0.65
0.6"	0.27	0.60	0.64	0.80	0.91	1.02	0.75

Panel Size	Standard 24" x 24" up to 48" x 96"
Panel Thickness	0.4" or 0.6"
Fire Resistance	ASTM E 84 Class 1
Finish	White
Installation	Install into conventional 15/16" or 9/16" T-grid systems
